Serving the Processing, Manufacturing and Oil and Gas Industries: Bulk Material Handling, Screening, Moisture Measurement and Wear Components

We are very pleased to announce that effective immediately we represent Elizabeth Carbide Components of Latrobe, Pennsylvania.. Always Quality... Always Dependable. Elizabeth Carbide Components offers competitive pricing and dependable delivery. Hundreds of satisfied customers depend on Elizabeth Carbide Components for custom

manufactured quality tooling, wear parts, specialty components, contract grinding, EDM and machining services of Tungsten Carbide, Tool Steel and Ceramic.

For prompt pricing and delivery information on your next job, fax, e-

mail, or send your drawings and requirements to us.

Vibroscreen[®]
Vibratory Screeners for sifting, scalping, de-dusting, classifying, de-lumping & dewatering of dry bulk solids and solids-laden slurries.

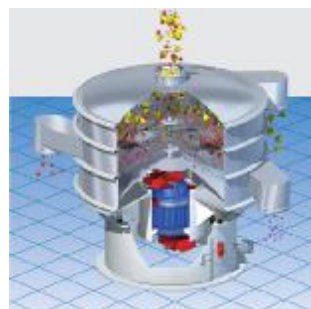

Centri-Sifter[®]
Centrifugal Screeners for sifting, scalping, de-lumping and dewatering of dry bulk solids and solids-laden slurries. Kason fluid

bed dryers, coolers, and moisturizers employ an innovative circular processing unit which is inherently stronger, lighter, and less costly to build and finish to sanitary standards than

rectangular units having equivalent surface area.

The list of actual and potential applications for Kason's Vibratory Screeners seems endless and recently in Scotland we added the de-watering of asbestos contaminated waste to that ever-growing list.

Whether you are separating waste or reclaiming egg from broken shells – give us a call!

Moisture Measurement – *continued*

MALCAM pioneered the integration of microwave-based moisture and density analysers into the tobacco market and leads this market. MALCAM's systems are

operational in hundreds of sites worldwide in various industries including dairy/cheese and many other applications. See them this month at 'Rubber Expo 2009' In Pittsburgh, October 12-13, **Booth # 529, Section A**

Other developments....

Our website has been recently updated and you can find product details and brochures for all products from: Malcam, Kason, Vortex, Elizabeth and Precision Pipe Supports in

addition to various links and an enquiry form. Please note that we continue to expand our offer and more new products will be added in the near future.

We are investigating the possibilities of

adding the following categories of products to our range:

- Level Measurement (in solids & liquids)
- Anti-Static / Control
- Conveyors
- Level Controls

About Our Organisation...

Hearne Quinton Ltd are Manufacturers' Agents' specialising in the supply of products for the bulk material processing and

manufacturing and Oil & Gas industries. We aim to keep you regularly informed of new products as they are added to our range

and offers from the leading Manufacturers whom we represent. Please do not hesitate to let us know how we can support your requirements.
