

Flange thickness	Easyfit clip reference	
	Light series	Heavy series
0-10mm	L1	H1
10-15mm	L2	H2
15-20mm	L3	H3
20-25mm	L4	H4
25-30mm	L5	H5
30-35mm	L6	H6

All dimensions in mm

The EasyFit support system comprises of a simple clamp and cantilever assembly. Fitting is a straight-forward one-man task enabling installation time to be kept to a minimum.

The support clamps firmly into position around the beam flange with no need for drilling or welding. This makes the EasyFit system completely safe to use in hazardous or potentially explosive environments.

The supports can be supplied in various sizes to suit the thickness of the beam flange and is fully adjustable to suit the width.
